HOW IT WORKS:

1. If you have details for the project, they will need to be discussed. This includes:
 - Specs for the artwork
 - Dimensions (size of files)
 - Colour space (verify if print will be CMYK or RGB)
 - If artwork must be vectorized for print
2. If you have ideas for the project, they will need to be discussed. This includes:
 - Colours you would like to see
 - Details for the design (what do you picture it looking like?)
 - If you have any inspiration photos, these will help immensely as I will get a better idea of what you are looking for
 - If you are able to provide a rough sketch of your vision this always helps, but if you aren't 100% sure on what you'd like, we can discuss this.
3. After we have discussed details and you'd like to continue with the project, I will provide you with a price. I will send a contract your way for you to sign, this simply ensures that neither of us can go outside the bounds of what was agreed upon for the work.
4. Once everything has been agreed upon, I will send you an invoice. Please keep in mind:
 - When transactions are completed through PayPal, all monetary amounts are in American Dollars.
 - When transactions are completed through e-transfer (Canadian Clients), all monetary amounts are in Canadian Dollars.
5. Payment will come before the project begins, to verify compensation for the work that will be done.
6. Throughout the project, I will send you progress photos to ensure that I am headed in a positive direction. Please keep in mind:
 - The client has three revisions/changes to the work included with the service. Once the changes surpass this number the price will increase.
7. Finally, once you are happy with the work, I will send all necessary files your way for production.

Thank you so much for choosing me as your artist, I look forward to working with you!
